

# FAIR & IMPARTIAL POLICING

## The Fair & Impartial Policing® (FIP) Patrol Officer & Supervisor Booster Training October 18, 2022 | 1:00 pm – 5:00 pm Hosted by Traverse City Police Department Must register by September 23, 2022

The **Fair & Impartial Policing** (FIP) curricula is based on the science of implicit bias. Implicit biases can impact what people perceive and do, even in people who consciously hold non-prejudiced attitudes. The implication of the science of bias is that even the best law enforcement officers may manifest bias because they are human, and even the best agencies will have biased policing because they hire humans.

FIP's Booster training includes high-quality video vignettes with decision tree modeling that allows participants to apply key FIP principles to common policing situations. FIP trainers will engage Patrol Officers and Supervisors in this dynamic learning environment to review and reinforce FIP's core content, including:

- *All people, even well-intentioned people, have biases*
- *Having biases is normal to human functioning*
- *Biases are often implicit or unconscious, and can impact our perceptions and decisions*
- *How to recognize their implicit biases, and how to implement skills to manage biases*
- *How promoting fair and impartial policing can strengthen police- community trust*

**FIP National Instructors represent local, county, state, and university police, and bring practical, "street-wise" applications for law enforcement personnel at all levels of the organization.**

### Eligibility

You must be employed by a law enforcement agency or training academy.

### Location:

Park Place Hotel & Conference Center  
300 E. State St. Traverse City, MI 49684
